DARIAH, the Digital Research Infrastructure for the Arts and Humanities, is looking for a <u>full-time Developer</u> based in our Berlin offices
(TV-L HU 13 pay scale, with work-place flexibility options)

Overview

Post Title: Developer
Post Status: full-time contract until 30 September 2023 (convertible to permanent position based on performance)
Location: Berlin, Germany (remote work from another location in Germany – German employment contract – or France – French employment contract – can be arranged, with occasional travels to Berlin)
Application Closing Date: 17 May 2021
Salary: according to TV-L HU 13 pay scale (~ €48,800 (gross) per year at level 1)
Starting date: as soon as possible

Position Summary

We are looking for an experienced Developer (m/f/d) with a degree in computer science or related fields and expertise in the maintenance of technical infrastructures. The main part of the work will take place in the ecosystem of the European Open Science Cloud (EOSC) and revolve around the administration and technical integration of services. The successful candidate will join an experienced international team with over 15 years of experience supporting our research communities.

Requirements

Applicants for this position should:

- hold an academic degree or equivalent qualification in computer science or related fields;
- have software development skills and practical knowledge of web technologies (PHP, JavaScript, REST-API, etc.);
- have knowledge of accessibility/usability standards, best practices and industry conventions;

- be fluent in English and have excellent oral and written communications skills, with the ability and confidence to engage with project partners clearly and professionally;
- be organised, conscientious and resourceful.

Following skills would be a plus:
- knowledge of further standard programming languages (Java, Python);
- experience in an area of applied computing or information science (e.g., digital libraries, metadata, semantic web, information retrieval);
- curiosity for technological innovations;
- some experience in IT Service Management (FitSM training will be provided during the first weeks).

Note on the Decision Process at DARIAH ERIC

Applications will be acknowledged by email. If you do not have confirmation of receipt within 3 working days after submitting your application online, please get in touch with us. Interviews for this position will be held at the end of May, 2021, via video conferencing. Interviewees will be notified of outcomes in writing as soon as possible after a decision has been taken.

Equal Opportunities Policy

DARIAH ERIC is an equal opportunities employer and is committed to the employment policies, procedures and practices which do not discriminate on grounds such as gender, marital status, family status, age, disability, race, religious belief, sexual orientation or membership of the travelling community.

Application Procedure

Candidates are asked to submit a cover letter along with a full CV including the names and contact details of 2 referees (e-mail addresses if possible), everything together in a single PDF file, via e-mail to Anne Grésillon (anne.gresillon@dariah.eu). Only applications via email will be accepted. If you have any further questions, please contact Ms Grésilllon. Your personal data will be deleted three months after termination of the application procedure.
