

Mutual Learning Workshop for Improving Cultural Heritage Bibliographical Data

The Bibliographical Data Working Group of the [DARIAH-ERIC](#) consortium is organising a workshop entitled *Mutual Learning Workshop for Improving Cultural Heritage Bibliographical Data*.

We are bringing together representatives of cultural heritage institutions and researchers for an interdisciplinary discussion on bibliographical data re-use, enrichment and automated generation. As a result of the meeting we aim to prepare a public statement on how both sides can intensify collaboration in the fields discussed during the workshop.

The workshop will be arranged in an in-person format and will be accessible online via Zoom also.
